

The University of Queensland
School of Electrical Engineering and Computer Science
ENGG4800 – Project Management

Applied Class 7

Topic: Risk Management

Question 1

- a) What is the difference between risk and uncertainty? Please give an example of each of them.
- b) What is the difference between avoiding a risk and accepting a risk?
- c) What are the benefits of opportunity management? Can you give an example?
- d) What do you mean by “Contingency reserve” in project management?
- e) What is a risk register? What kind of information is listed in a risk register?

Question 2

Consider the following scenario and comment on how you think the project team should respond to the potential risks. Provide justification for your opinion.

The project team organising inter-school football tournament has identified the following potential risks to their project:

- a) Referees failing to show up at designated games.
- b) Fighting between teams.
- c) Pivotal error committed by a referee that determines the outcome of a game.
- d) Abusive behaviour along the sidelines by patrons.
- e) Inadequate parking.
- f) Not enough teams sign up for different age brackets.
- g) Serious injury.

Try Case 7.3 and Case 7.4 (on pages 244 and 246 of the textbook) at home for better understanding.
